

Full-Service Security Firm & Solutions Provider

Ariel Secure Technologies launched in 1989 as a firm dedicated to providing a comprehensive suite of security solutions for government facilities with high-security clearance. With nearly 40 years of experience, we prioritize personalized service and building strong relationships with our customers.

What Sets Ariel Apart

END-TO-END FULL SERVICES

Our core expertise lies in designing, implementing, and managing enterprise security architecture, including access control, video surveillance, and more. **We value innovation, attentive service, and trust** to make sure our clients' assets — including their people and their data — are fully secure inside and out.

EXTENSIVE EXPERTISE

With nearly **40 years of experience**, Ariel understands the intricacies and complexities of running high-security facilities. Our team has in-depth knowledge and skill with all the components that are a part of a fully secure system.

CERTIFIED CREDIBILITY

With federal government LENEL VAR certification, Ariel has proven high-level proficiency with installing and maintaining LenelS2 access control and security systems. Plus, **72% of our employees hold security clearances**.

PROVEN PARTNERS

Employees working in high-security government facilities need complete confidence in their total cyber-physical security systems. We have a **lasting reputation for providing updated technology, measurable results, and consistent communication**.

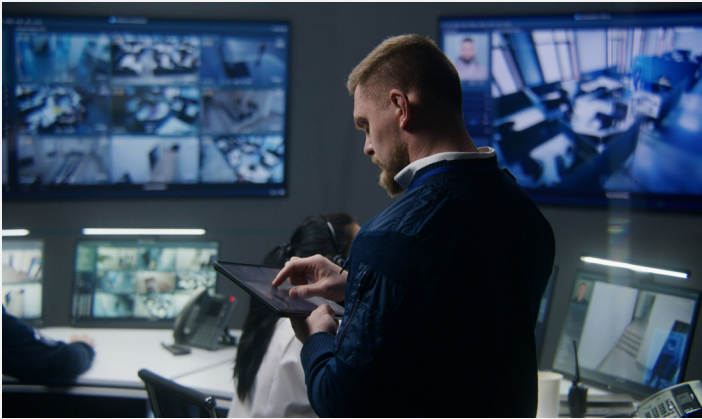

CUSTOMER CARE

When you work with Ariel, you can count on our team to listen to your concerns, respond quickly and attentively to your needs, and **provide the high level of support** you should expect from a security-focused organization.

FULL ACCESS TO DECISION-MAKERS

Working with Ariel Secure Technologies means you get direct access to our team's decision-makers — **professionals who know exactly what needs to be done and how to do it.** We work directly with:

- FEDGOV & IC clients in government-classified facilities
- Intelligence community directors
- Facility managers
- Prime contractors
- Security technology vendor partners
- Department of Defense (DoD)
- Civilian Agencies

Trust, Visibility, and Control

You need to be confident that your high-security government facility is fully protected so your team can get their important work done. **Let Ariel be your partner for updating your security system with the latest technologies and solutions that actually work.**

WHAT OUR CLIENTS SAY

“They know their stuff; they do their homework. They thoroughly examine the scope of work and construction docs, and they always have the right level of staff in there to do the job.”

“They’re incredibly efficient, knowledgeable, and always go above and beyond for us.”
